The authors

Mission — To lead the debate on healthcare and to deliver innovative, useful evidence based knowledge, best practice and learning to doctors, other health professionals, researchers and patients when and where they need it. He was one of numerous doctors including 1750-1827 and 1768-1841 who vocally supported the idea of parliamentary reform and extension of suffrage. I doubt if he was very prosperous and I suspect that he would have had neither the money nor the inclination to commission a portrait himself.
