Magnetorheological fluid

That way, fuel could be drawn into the engine using magnetic force. The magnet was placed under a planar homogeneous surface and if the magnetic force was strong enough to overcome the resistant friction force and the capillary force, the droplet could slide along a flat surface with the same velocity as the magnet. Nevertheless, it should be noted that the company MagForce is in preparation of an FDA application for magnetic fluid hyperthermia treatment of glioblastoma.

Magnetic Fluid

In 1989 the Nobel Prize in Physics was awarded to Hans Dehmelt of the University of Washington in Seattle for his work on the fundamental properties of electrons.

Make Your Own Ferrofluid in 5 Minutes : 5 Steps (with Pictures)

Not bad for a bunch of grey oily goop.

Magnetic fluid rheology and flows

The Solution Having a Flo-Rite Magnetic Fluid Conditioner tool at the bottom of the well treats every drop of fluid before it reaches any equipment. When an external field is applied on an MR fluid, particles tend to self-assemble along field lines and create structures that span lengths on the order of millimeters.
