### Implementation research to support Bangladesh Ministry of Health and Family Welfare to implement its national guidelines for management of infections in young infants in two rural districts

The Bangladesh Ministry of Health and Family Welfare MoHFW , Government of Bangladesh GOB adopted these guidelines, allowing treatment at first-level facilities. They reviewed and approved the research plan, consent forms, and data collection forms.

### The Government Family Welfare Assistants, Health Assistants, and Community Health Care Providers in Bangladesh

The contents are the responsibility of the authors and do not necessarily reflect the views of USAID or the United States Government. Sylhet and Chittagong are historically low performing divisions of Bangladesh for maternal, newborn, and child health indicators.

### Impact on the performance of family welfare assistants for their involvement in Expanded Program on Immunization

This study examined the extent to which family planning activities were affected adversely by FWA participation in EPI programs and the extent of benefits derived from EPI efforts.

### FWA

Thus, there is a need to study how these guidelines will be implemented outside of randomized controlled trials. World Health Organization, Guideline: Managing possible serious bacterial infection in young infants when referral is not feasible. The JHU qualitative team coded the English transcripts and analyzed as per a framework for analysis based on the objectives of the program and its implementation.

### FWA

Per the updated guidelines, the SACMO assesses the infant and determines an illness classification based on the standardized Integrated Management of Childhood Illness IMCI algorithm for infants under 2 months of age Table.
