I am hoping that perhaps Japan is finally onto something that will put it at the vanguard of the international community. The first is the principle of single-party dominance, in which the LDP has far more parliamentary seats than any other party, and other parties, rather than acting as an opposition, operate without power in a role supportive of the dominant party.

The work was to be action-oriented and to reach practical results, to direct research and outreach activities, and disseminate the results of its work.

Japan and the challenge of human security: the founding of a new policy 1995

Texts dealing with the history or political history of Modern Japan often describe the Yoshida Doctrine as if not only the ideas that comprise the doctrine emerged but also that the doctrine as such was formulated in the early postwar years.

Japan and the challenge of human security: the founding of a new policy 1995

This has been achieved through a series of coalition, quasi-coalition and patron-client arrangements in which other parties and interest groups including, incidentally, many labour unions have taken on the character of semi-dependence on largesse dispensed by the LDP. Instead, thousands of nongovernmental organizations have come on stage in recent years, driving their own issues to the top of the diplomatic agenda.
