### Aquatic weed control technical assistance

Our Vision: 21 st Century Salmon Initiative The Washington Department of Fish and Wildlife developed the Initiative to meet its responsibilities in recovering salmon and steelhead and provide sustainable fisheries.

### Reducing the risk of wildlife collisions

The GMA requires special consideration be given to conservation or protection measures necessary to preserve or enhance critical anadromous fish resources.

### Aquatic weed control technical assistance

WST biologists communicate WDFW policy and advice on the local strategy, plan development, and project identification and implementation and serve as a conduit for the science and technical assistance resources available at WDFW.

### Washington Fish Reports

You can help by reporting non-native and invasive species at the. Participants can conduct their count Feb. It sets out goals, assesses where WDFW is in relation to those goals, and identifies benchmarks to measure progress.

### Report wildlife observations

Station, 5782 Winslow Hall, University of Maine, Orono, ME 04469-5782; 207 581-1110. Fish and Wildlife Service, Region 5, Newton Corner, MA.

### Salmon Conservation

Highly motivated wildlife will find their way around the ends of fenced highway segments, especially if there are no built-in crossing structures.

### **Habitat Conservation & Protection**

After several days, the chick hatched on February 1.

### **Reducing the risk of wildlife collisions**

In some cases, other sources provide grant funds, which are then administered by WDFW.
