Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh

Symposium of the Society for the Study of Inborn E

In particular we were honoured that Professor A. . In this case we were very fortunate in gathering together experts from all the fields mentioned above.

Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh Symposium of The Society for the Study of Inborn Errors of Metabolism by J.B. Holton

Following the pattern of previous years the 11th symposium of the S. Intensive research during the last few years particularly on the structure and disorders of connective tissue has considerably advanced our knowledge on this subject.

Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh Symposium of The Society for the Study of Inborn Errors of Metabolism by J.B. Holton

Genetic defects of the degradation of glycosaminoglycans: the mucopolysaccharidoses.

Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh Symposium of the Society for the Study of Inborn E

Dorfman of Chicago could accept our invitation to give the second Milner Lecture. The subject chosen-Inborn Errors of Skin, Hair and Connective Tissue, was a highly topical one.

Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh Symposium of The Society for the Study of Inborn Errors of Metabolism by J.B. Holton

The bringing together of workers of many disciplines to contribute to the particular subject under discussion at our Symposia has always been an important objective of the Society.

Inborn Errors of Skin, Hair and Connective Tissue: Monograph Based Upon Proceedings of the Eleventh Symposium of The Society for the Study of Inborn Errors of Metabolism by J.B. Holton

The bringing together of workers of many disciplines to contribute to the particular subject under discussion at our Symposia has always been an important objective of the Society. We were also privileged to have some excellent contributions from the research scientists on whom we must rely for our ultimate understanding of the diseases, and rational approach to treatment. Intensive research during the last few years particularly on the structure and disorders of connective tissue has considerably advanced our knowledge on this subject.
