To help you find just what you need, I've sorted these lessons in a few different ways: By By By cross-curricular Lesson Plans Sorted by Age Level Most of these lesson plans work with a large age range with appropriate adjustments in level of sophistication , but I've listed them here in approximate order, from youngest to oldest.

## **Stages of Development: Information for Parents**

Children today are sure to enjoy these 12 timeless stories, each of which is accompanied by an interesting fact about Aesop and his time. Students create a leaf spinner and record daily temperatures. Number and Operations: Rather than engaging in rote counting and numeral recognition, children can be encouraged to ask: How many are there? Beyond the usual age appropriate reading, writing and math exercises — all of which were designed by professional educators — our preschool worksheets teach kids everything from sorting techniques and the five senses to feelings and emotions.
