Executive Order On Advancing Racial Equity and Support for Underserved Communities Through the Federal Government

Conducting an Equity Assessment in Federal Agencies. London: The Stationery Office, 2004.

Department of Health

Institutionalised racism is directed towards patients, and is highlighted, for example by the inquiry into the death of David Bennett. Vaccine appointments are available on our , check often as new appointments are added frequently. DOD continues to build MLDC recommendations into the foundational practices of our diversity and inclusion programs.

Responding to the Delivering Race Equality (DRE) agenda in mental health services: national recommendations informed by local experience

Snowy peaks In 2003, Trevor Phillips, chair of the Commission for Racial Equality, described the NHS as a snow-capped mountain that was white at the top and black at the bottom.

Responding to the Delivering Race Equality (DRE) agenda in mental health services: national recommendations informed by local experience

Open University Press; Buckingham: 2001. Ethnicity, Race and Health in Multicultural Societies.

Office of Diversity Management and Equal Opportunity

BME communities, particularly African, Caribbean and Muslim people, are still perceived either as a menace to society or victims of their own misfortune in terms of culture, faith and identity.

Put race equality in mental health back on the agenda

We found limited and patchy attention to ethnic diversity and inequity within English healthcare commissioning. The Data Working Group shall: i through consultation with agencies, study and provide recommendations to the APDP identifying inadequacies in existing Federal data collection programs, policies, and infrastructure across agencies, and strategies for addressing any deficiencies identified; and ii support agencies in implementing actions, consistent with applicable law and privacy interests, that expand and refine the data available to the Federal Government to measure equity and capture the diversity of the American people. Acknowledgement The author would like to thank members of the CPHVA equalities committee for their contribution and support.

Arizona Department of Health Services

Snowy Peaks Syndrome--Trevor Phillips speech to business leaders 9 December 2003. The Department carried out an initial Audit of Inequalities and consulted on a new draft EAP from December 2017 to February 2018. Cultural awareness must move beyond diversity training.

Race equality and health service management: the professional interface: Penny Franklin outlines the importance of educating and supporting issues of equity and diversity in the workplace by focusing on the race equality agenda.

Many Federal datasets are not disaggregated by race, ethnicity, gender, disability, income, veteran status, or other key demographic variables. Based on the recommendations of the Inquiry in 2004, with a clear remit for commissioners and service providers to tackle ethnic inequality, this national strategy has been cast aside as yet another failed race equality initiative.
