Architects of Illusion: Men and Ideas in American Foreign Policy, 1941

American Science in an Age of Anxiety: Scientists, Anticommunism, and the Cold War. A thoughtful critique of Left revisionist writings on the Cold War, principally focusing on the theories, not the research, of the revisionists. Since the 1980's, many books have been published on the Cold War using secret information, including archives from the former USSR, the USA, and other nations.

Political Science Quarterly: December 1972: Review: Architects of Illusion: Men and Ideas in American Foreign Policy, 1941

A book that does not look new and has been read but is in excellent condition.

Architects of Illusion: Men and Ideas in American Foreign Policy, 1941

How the Far East Was Lost. One of the most important books written about American diplomacy, this covers the period since the founding of the Republic and has shaped the thinking and research of the Left revisionist historians.

Architects Of Illusion by Gardner, Lloyd C

While the book presupposes a sturdy background, it will serve students well with its presentation of the frictions, muddles, and economic pressures, which have been bypassed by revisionists as well as orthodox polemicists--a virtue compounded by Gardner's sensitive use of primary sources. It's also impressionistic and involves frequent flashbacks. America in the World: The Historiography of American Foreign Relations Since 1941.
