Differences in Micro & Macro Teaching

It is not as helpful to only focus on those that are weak.

The Four Basic Components of a Mini Lesson

This is a short statement, no more than a

sentence or two, that brings closure to the mini lesson. Sharing tips and strategies in this way allows students to gain valuable, relevant skills on a regular basis without spending too much time on drill and worksheets that might otherwise be used to teach the same skills.

Writing Lesson Plan

We are inundated with information, day in and day out, that sometimes it can be overwhelming trying to keep track of it all. In a mini lesson, however, this component should be kept short. For example, the structure and tone of a newspaper article differs greatly from a creative narrative.

The Micro

Without this concept, we have grocery-list stories that involve lots of conjunctions, commas, and actually tell you nothing! First Immediately Next By Now Then Meanwhile Finally Ultimately After this mini-lesson, I send my students back to their seat to independently create a sequence of events for their own creative narrative. I actually pulled one of the examples straight out of a discussion comment one of my students made yesterday.

The teacher could also make use of nonverbal behaviours such as smiling, nodding and gesturing. Some students are naturals; they can embed text

as easily as they can recite their home address.
