Industrial Ceramics

Ceramics made through the above mentioned process are known as advanced ceramics or.

Industrial Acid Proof Ceramic Bricks

The Directors and Management have been in the industry of corrosion protection for in excess of 100 years.

Ceramics Manufacturing in the US

We specialize in the design and manufacture of ceramic ferrules and inserts for the thermal protection of Waste Heat Boilers, as well as nozzles and shapes for specialized applications. These are available in the standard elbow, tee and cross geometries as well as many custom configurations.

Types of Ceramics for Technical Industrial Applications

This advanced ceramic is made from magnesium silicate and is a popular choice of material for insulators for electrical components. Known for their sturdy nature, these products are able to bear heavy loads. A professionally managed Company, ORIENT CERAMICS is extremely well recognized by Ceramist.

Industrial Ceramics

Throughout our long history, we have supplied our ferrules to a very wide range of clients in almost all the countries, where Sulphur Recovery or Sulphuric Acid plants can be found.

Ceramics Manufacturing in the US

Durachem bricks are normally installed with chemical resistant mortars. It excludes loan receivables and some receivables from related parties.

Ceramics Supplier & Installer

These products withstand thermal shock at high temperatures and are compatible with pour cups and shell materials. Cordierite has a very high thermal shock resistance and thus widely used in high temperature industrial applications such as heat exchangers for gas turbine.
