1.3 Theoretical Perspectives in Sociology

Whereas Comte viewed the goal of sociology as recreating a unified, post-feudal spiritual order that would help to institutionalize a new era of political and social stability, Marx developed a critical analysis of capitalism that saw the material or economic basis of inequality and power relations as the cause of social instability and conflict. Both multiple-choice and short-response questions feature a variety of question types and range of difficulty.

The Sociological Approach to Religion

What are the sequences of linkages and social relationships that link the T-shirts in your chest of drawers to the dangerous and hyper-exploitive garment factories in

rural China or Bangladesh? It makes people more aware that there are many different kinds of people in the world who do not necessarily think the way they do.

Through this popular translation she introduced the concept of sociology as a methodologically rigorous discipline to an English-speaking audience. Max Weber: *Verstehende Soziologie* Figure 1. Publically funded health care had been introduced for the first time in Canada that year by a socialist Co-operative Commonwealth Federation CCF government in Saskatchewan amid bitter controversy.

Chapter 1. An Introduction to Sociology

Summary Religion describes the beliefs, values, and practices related to sacred or spiritual concerns. This perspective is centred on the notion that communication—or the exchange of meaning through language and symbols—is how people make sense of their social worlds. These are the type of questions that point to the unique domain and puzzles of the social that sociology seeks to explore and understand.

Preface to Introduction to Sociology

Critical theory is an expansion of conflict theory and is broader than just sociology, including other social sciences and philosophy. They share movies, television shows, music, games, and information over the Internet.

The Sociological Approach to Religion

One Dimensional Man: *Studies in the Ideology of Advanced Industrial Society*. Millions of people were moving into cities and many people were turning away from their traditional religious beliefs. Manifest functions are the consequences of a social process that are sought or anticipated, while latent functions are the unsought consequences of a social process.
