Get Involved in a Community Anti

A main objective of the program is to establish and strengthen collaboration among communities, public and private non-profit agencies; as well as federal, state, local, and tribal governments to support the efforts of community coalitions working to prevent and reduce substance use among youth. Treating the substance use alone will not help resolve underlying mental illness, and treating a depressive disorder alone will not resolve the substance use or dependence. Isolate and transport students who develop symptoms while at school Some students may develop symptoms of infectious illness while at school.

Drug Free Communities (DFC) Program

Sixty-one percent of high school seniors have used drugs. Psychoneuroendocrinology 32 8-10 :892-905, 2007.

What are the options for getting my kid treatment for his or her drug use?

As another example, some schools internationally have rotated in-person attendance weekly with one group of students attending during a week, followed by a different group the next week in rotation with thorough cleaning on the weekends.
