Departmental News

County Museum of Art, U. He participated in the planning, design, and implementation of the CSUN Ed.

Previous Whitehead lectures

How a human expresses a shape is a consequence of how he or she visualizes it. I completed my PhD at the Donders Centre for Cognitive Neuroimaging, in Nijmegen, The Netherlands, under the supervision of Prof Ole Jensen. The report of this commission was published in July 2020, highlighting that there were multiple problems with bullying, discrimination and a lack of diversity, and that many students came to the university with a sense of entitlement.

Speakers

University of the Punjab, Lahore, Pakistan.

Previous Whitehead lectures

We advocate for these two rules by presenting a new approach for sketch-based 3D object retrieval that describes a 2D shape by the visual protruding parts of its silhouette.
