Personalized Learning in Physical Education

Lastly, personalized learning is not contingent upon the availability of technology in the classroom. If students are given voice and choice, they are engaged and empowered to perform the task.

Learning Progressions: Maps to Personalized Teaching

This app allowed them to personalize their workout in a variety of ways.

Teaching for Tomorrow: physical education

Can present throughout the year including the summer. What a task to ask of high school students, and they had a lot of questions! Sarah, a former 6th grader who was afraid to participate in a soccer game, is now on her high school soccer team. Students had the choice to complete any of these tests, which are normally completed by third-year Human Kinetics students.

Personalized Learning in Physical Education

I think project-based learning PBL is one way to not only create this, but to also show others how valuable PE can be. They shared their data, demonstrated their units, engaged in persuasive rhetoric, and shared the stage with each other.

Project

I showed my class a video which tells the stories of several young children and the stories of their heart disease. These scores would serve as a

baseline for each student's progress throughout the year. Recently, I used personalized learning methods for remediation in my science class.

Personalized Learning in Physical Education

What personalized learning is not Personalized learning is not a student free-for-all. By the time children are in the elementary grades it's much harder and critical times for learning skills may have passed. Inquiry and Innovation Because the task is authentic and open-ended, students are constantly engaged in the inquiry process.
