Streszczenie: The Birth is a multi-media video installation inspired by my personal experiences of a miscarriage and the births of my two children.

Think No Evil (September 1999 edition)

Based on this, this thesis argues for the CP status of finite OC in Korean and a pro analysis of the null subject in the constructions. Although Chongryun Koreans have been educated in the Korean language through the model of the North Korean standard language in schools, their Korean language comprises not only official North Korean features but also southern dialectal features presumably transmitted from first generation Koreans and is influenced by the dominant language, Japanese.

The expression of definiteness in Korean is analyzed as controlled by the pragmatic motivation to differentiate nouns with respect to their topical relevance and importance. An important piece of evidence is that missing constituents can be embedded deeply and the relative suffix nun is in the highest verb next the head noun. Chapter One re-assesses the leadership roles that Korean women were able to exercise in traditional Korean society, and corrects missionary misperceptions that denigrated the image of Korean women.
