### Sanctuaries, Greek

Each chapter has a bibliography for further investigation, although specific references in footnotes would also have been helpful.

### Greek sanctuaries

In this second edition there are new chapters on Western Greece, covering the site of Paestum in Magna Graecia South Italy, and the unique temple of Olympian Zeus in Agrigento, Sicily. From 1984 to 1996, Helmut Kyrieleis took over the site and the focus shifted to the earlier history of the sanctuary with excavation of the Prytaneion and Pelopion. In large sanctuaries it is often possible to distinguish between an innermost sacred area round the altar as place of sacrifice and the temple as the abode of the god, and an outer area given over to human activity, the feasting and contests. In 2011 it was combined for reasons of economy of government with three other former demes within which union the four became municipal units. Both sanctuaries were well endowed with sculpture and other large-scale dedications.
