Bonaparte at the Pont d'Arcole

The Fragment as a Metaphor for Modernity, London and New York, 1994, pp. Moreau was buried at St Petersburg; his wife received a pension from the Tsar and was given the rank of *maréchale* by King Louis XVIII. The land bordering the river is painted in dark tones, with a smoking cannonball still visible.

Head of a Guillotined Man

These paintings were intended either as gifts for the First Consul's closest friends or to be sent to commemorate his latest successes in specific towns in the provinces see E.

Napoleon on the Battlefield of Eylau

When his final effort for a classical comeback at the Salon of 1835 was heavily criticized, Gros drowned himself in the Seine. After Napoleon's exile in 1812 the diamond was removed from the sword, and is today on display in the Galerie d'Apollon in the musée du Louvre see I.

Napoleon on the Battlefield of Eylau

As for the others: a note from Bonaparte dated 1803 indicates that he ordered from Gros three portraits of Napoleon for the towns of Bordeaux, Lyon and Lille. The rise of Jean-Victor Moreau had been remarkable. Label Text The commanding figure of Napoleon Bonaparte 1769—1821 surveys the carnage after the battle between French troops and combined Russian and Prussian forces at Eylau now in Russia.
