Library of Congress, Washington, D. To that end, we asked the top political minds in our U. Further, he committed to dedicating 40 percent of the benefits of investment to historically disadvantaged communities and communities of color to address generationslong environmental injustices.

## **Our History**

In a post-Western world of resurgent nationalism, a policy based on Chinese nationalism rather than universal values will not appeal to a global audience.

## **U.S. Drug Policy**

The had a long history as a protectionist country, with its tariffs reaching their high points in the 1820s and during the Great Depression. Meanwhile, the global decline in the democratic nucleus of the liberal component of the global order has been facilitated by an emerging axis of illiberal countries challenging democratic values. The EDF has been on the receiving end of many of these criticisms, primarily on the basis of a fear that European defense industrial cooperation would exclude American companies and would therefore set an undesirable precedent for the future.

## **About Import Injury Investigations**

While it is not the job of the United States to deliver the world of evil, in protecting the national security of all Americans, our leaders have a responsibility to advance these same values, understanding that a freer world is a safer world.
