Conflict Resolution in a Changing World

Every one of us in the Party must do more to uphold Party leadership and the Chinese socialist system, and resolutely oppose all statements and actions that undermine, distort, or negate them. We should be good at exercising law-based governance.

Securing a Democratic World

We must unite all the forces that can be united and work as one to progress toward the brilliant future of national rejuvenation. If our Party is to unite and lead the people to effectively respond to major challenges, withstand major risks, overcome major obstacles, and address major conflicts, it must undertake a great struggle with many new contemporary features.

Preparing the U.S. National Security Strategy for 2020 and Beyond

We encourage simple, moderate, green, and low-carbon ways of life, and oppose extravagance and excessive consumption. We must continue to enhance the political loyalty of the armed forces, strengthen them through reform and technology, and run them in accordance with law.

Military Force Restructure For The Future

What is a foreign policy for the middle class? These complexities are mentioned below and are more evident in the chapters that follow. We will launch vocational skills training programs on a big scale, give particular attention to tackling structural unemployment, and create more jobs by encouraging business startups.
