Patient and public involvement in doctoral research: reflections and experiences of the PPI contributors and researcher

How about the excellent supervisors who read the Thesis Whisperer? Treating my PhD students as fellow travellers recognises my sense that I am merely more progressed on my research journey, rather than able to offer definitive advice to others on how they should undertake theirs. Days Minutes in the Life of a School. Watch this webinar to learn how your experience can influence your writing and the appropriate ways to incorporate it.

Shoba then met with us to discuss some of the anonymised interviews and the initial findings, which we found not only interesting but, in many cases, resonated with our own personal experiences. These workshops are rare in my experience, but you only have to go to one to be put off the

genre.

She asked for our feedback and it was then incorporated, this process also helped Shoba to gain confidence in interviewing study participants. Secondly, it presents the personal accounts of PPI contributors as well as the researcher reflecting on their experiences of involvement. However, I fear it could leave many students disorientated in a new town, not even knowing what help I could offer if only they walked into the information kiosk.

What to do when your thesis is rejected by the examiners

Reflexive Inquiry and the Theory-Practice Gap. Given that the current doctoral research was about PPI focusing on inclusivity and diversity, efforts were made to primarily recruit PPI contributors from BAME backgrounds and individuals with and without prior PPI experience post-funding. We also suggested how interpreters could be used particularly when targeting older women from South Asian communities.

Scholarly Writing

Conclusions This paper contributes to the wider literature by providing an exemplar of how PPI can be embedded in doctoral research and demonstrates the value of PPI to the research process and the individuals involved.
