## List of socialist states

Polls have also showed that a majority of post-Soviet states viewed the collapse of the Soviet Union negatively and felt that it could have been avoided.

## AskMe: Which socialist countries are transitioning to capitalism?

A number of arguments have been offered by professionals in the field, ranging from a discussion of prerequisites for not supported by the to a lack of democratic actors initiating the necessary democratic transition.

## Socialist state

It is no accident that the proposal rapidly petered out and vanished.

## AskMe: Which socialist countries are transitioning to capitalism?

From the to the early , the grew faster than the and maintained itself as the for much of the until 1988, when took the second place. Latin American countries have primarily financed their with extractive exports like petroleum, natural gas and minerals, creating a dependency that some economists claim has caused inflation and slowed growth.
