### The effect of stress relaxation on the vibration of a viscoelastic string

Olejnik, Katedra Automatyki, Biomechaniki i Mechatroniki PŁ, Łódź 2017, 519 — 532. In this paper, we study the evolution of the wave equation with such higher-order tangential dissipative boundary conditions. Jędrysiak, On stability of thin periodic plates, Eur.

### Asymptotic Analysis of Spatial Problems in Elasticity

Woźniak, Elastodynamic behaviour of honeycomb cellular media, J. Jędrysiak, Thermoelastic phenomena in transversally graded laminates, Comp. January 1997; 119 1 :31—36.

### Nonstationary processes: Decreasing forcing frequency

Woźniak, Elastic shallow shells with functionally graded structure, PAMM, 9 2009 357 — 358. Woźniak, The dynamic modelling of thin skeletal shallow shells, in: Shell Structures: Theory and Applications, 2, eds. Radzikowska, Thermoelastic response in infinite hollow cylinder with longitudinally graded material properties, Build.

### On the Occasion of the 100th Anniversary of the Birth of Academician Yu. A. Mitropolsky (1917

Jędrysiak, Stationary heat conduction in transversally graded laminates with uniform and non-uniform distribution of laminas, Build.

### Nonstationary processes: Decreasing forcing frequency

Woźniak, Microstructural 2D-models of functionally graded laminated plates, in: Shell Structures: Theory and Applications, eds. Tomczyk, Tolerance models of dynamic problems for microheterogeneous cylindrical shells, J.

### **Tolerance modelling of nonstationary problems of microheterogeneous media and structures**

Sound and Vibration, 296 2006 130 — 149. Krylov and Bogolyubov, Russian mathematicians, made first step in introducing NS processes. Tomczyk, Dynamic modelling of thin micro-periodic cylindrical shells, in: Shell Structures: Theory and Applications, 3, eds.

### **Propagation of Seismic Wave Fields in Layered Media**

Lastly, the book introduces an asymptotic method for integrating the equations of anisotropic theory of elasticity in variable thickness plates and shells. Tomczyk, On the modelling of thin uniperiodic cylindrical shells, J. Mekhtiev Series Title Series Volume 99 Copyright 2019 Publisher Springer Singapore Copyright Holder Springer Nature Singapore Pte Ltd.
