## Levels of Biological Organization

Head of Section Ecology and physiology of marine protists. Hence, they developed adaptations like loud calls and sounds to communicate. Useful links to other internet resources relating to the topics on this site.

## Science for Kids: Tropical Rainforest Biome

The Marine Biological Section is placed on two physical locations: Strandpromenaden 5, 3000 Helsingør and Nørre Campus, Universitetsparken 4, 1st floor, 2100 Copenhagen Ø. One hundred and eighteen tried and tested experiments.

## Biological Drawings WORKSHEET

The canopy layer, which is about 100 feet above the ground, contains overlapping tall trees that act as a roof over the rest of the organisms below them. The central parts of the receive most of their precipitation during the summer months November to April, often in the form of torrential downpours. The funds will enable the beginning-farmer development training series to reach more Hawai'i residents who are interested.

## 14 Tropical Fish ideas

All staff can still be contacted through e-mail. MBS is situated both at Nørre Campus and in Helsingør in newly refurbished labs including state-of-art equipment for physiological and molecular experimental work.
