. The exterior of the keep was whitewashed at about this time, giving it the name it still retains.

Tower of London (The Gatehouse Record)

The New Armouries Building and the Grand Storehouse, destroyed by fire and replaced by the Waterloo Block in 1845, were also built. However, they developed considerably in form during the 12th century when defensive experience gained during the Crusades was applied to their design. On capturing London, still enclosed by its Roman walls, William I secured his position by the construction of two major castles.

Further major works to the castle were implemented by Edward I from about 1275.

The Tower of London

Murder mysteries fill the pages of this book — some of them celebrated crimes, like the murder of Charles Bravo at Balham in 1876. . It has a rubble and mortar core faced with Kentish ragstone, banded at intervals by tile courses.
