Let's bring the newlywed couple who are about to go on their honeymoon to this archaeological dig that they really don't have any interest in; seems reasonable. It could be worse; I appreciate that the story is hilariously elaborate-- whereas someone else might've stuck to the basics for a time-traveling-vampire-hunters story, Aldiss threw in feuding archeologists and nuclear waste disposal inventions and ghost trains and three different kinds of vampire and a ruined Earth at the end of time.
