## What Is an EPA Hazardous Waste Code?

In order to perform the reclamation, the chief may enter on adjoining land or other land that is necessary to access the land on which the surface mining occurred and on which the reclamation is to be performed. Any surface waters of the State whose quality is higher than the applicable standards of water quality as of the date when those standards become effective must be maintained in their higher quality. For changes in the size of decommissioning provisions caused by the new German tax law in 1999, a ten years transition period has been granted.
