About Us

The highest point is Pic de Fon, elevation 1,658 m 5,440 ft , in the southern portion of the range. At the southern end of the range the site of a large deposit is currently being developed. S is for serious, not always joking.

Careers

The Pic de Fon forest at the southern end of the range is a relatively intact area of approximately 25,600 ha that contains many typical flora and fauna of the ecosystem, including endangered species such as the Micropotamogale lamottei , the Pan troglodytes verus , the Cercopithecus diana diana and the Schistolaia leontica , a bird of the West African highlands known from only three other sites in the world.

Simandou

We engaged Joseph to handle the pending audit and he did so in a professional and efficient manner and we are grateful that we made the change. The range has two classified forests: Pic de Fon, designated in 1953, with an area of 256 km², and Pic de Tibé, designated in 1945, with an area of 60.
