## Interests: Social

If, however, the same person considers the relevant reference group to be those in the top 0. Unfortunately, these values may also have created a life that is carrying you down a path that is not the direction you want to go.

## Personal Growth: Your Values, Your Life

People and companies typically select a set of 10 or fewer core values to focus the ways they hire and maintain staff, approach daily business practices, conduct communications and more.

## Interests: Social

Especially if you are new to the job market or have little professional experience, identifying how you like to conduct work might be helpful for employers. The rule of 150 states that the size of a genuine social network is limited to about 150 members.

## Types of Social Groups

The following inventories will help you prioritize your essential work values. Growth is based on mutual success. You can then ask yourself whether your current values are the same as those you grew up with.

The goal of primary groups is actually the relationships themselves rather than achieving some other purpose. If you lived in the designated area, you became a part of that community. Fairly cheap and easily attainable technologies and programs have also influenced the increase in establishment of online communities.

## Personal Growth: Your Values, Your Life

Nodes are the individual actors within the networks, and ties are the relationships between the actors. A common question that people in social gathering ask is, what do you do for a living? Building Online Communities Every online community has a distinct set of members who participate differently.
