## KGS Geologic Map Information Service

Further stratigraphic description will be limited to the rocks of the Middle Pennsylvanian Breathitt Formation, which contain the economic coal horizons pertinent to this Technical Report. Haulroad 1 is an existing access road, permitted under Idle Time Enterprises permit 919-0062. Hower, Journal of Coal Quality, October-December 1991, Volume 10.

## Geologic map of the Millersburg quadrangle, East

Actual coal production on the properties is expected to commence in Spring, 2009, with a target coal production rate set at 10,000 tons per month.

## NGMDB Product Description Page

Unfortunately, many were used as dumping sites for years and became salty and sulfuric. Upon instruction, the Authors do not confirm the title of the Properties. This is because of ancient movement along the faults.

## Geologic Map of the Zachariah Quadrangle, East

These units are the Stoney Fork Member Ping and Rice, 1980 and the Vanport Limestone Member as used by Phalen 1912 see Figure 9. INTERPRETATION There has been sufficient data obtained through various exploration programs and sampling to support the geological interpretations of seam structure and thickness for the coal horizons situated on the Campton Coal Mine Property.

These data are generally surface observations at outcrops, high walls, and road cuts, but may include some data from drill holes and underground mines. A project is under way to complete map digitization over the next two years. The authors are not aware of any other outstanding obligations that are required to retain the Property leasehold.

### **Royal Standard Minerals Inc.: Form 6**

Since the naming of Lexington, the spring has served as the site for a mill, a gunpowder factory, a source of water for distillers, a dairy farm, a stockyard, a rock quarry, and now a recreational area. Interesting Geologic Features of Fayette County Bryan Station Fault, part of the Lexington Fault System, cuts through Lexington, but there does not appear to have been any movement along the fault for a long time.
