## BORIS

Possible disciplines include biochemistry, botany, ecology, zoology, physiology, and geology, depending upon the interest in any given year.

## Insect

Our relationship with BMGF is of particular strategic importance - both as a funder of Centre research, but more importantly as a key stakeholder in global health decision-making. Oxford University Press Ackermann, Markus; Gollmer, Kathrin; Germann, Philipp; Ficht, Xenia Maria; Abe, Jun; Fukui, Yoshinori; Swoger, Jim; Ripoll, Jorge; Sharpe, James; Stein, Jens Volker 2017.

## Browse by Research subject area at the University of Warwick

Chronic knee pain affects many people older than 50 years and is the most common pain concern among older people consulting General Practitioners.

## HistCite: Watson & Crick, Nature 171(4356):737

Journal of the Geological Society 144 5 , pp. It can, therefore, be taken as proof that the existence of anthrax preceded the arrival of the first Europeans in this part of southern Africa. Furthermore, different plasmids may coexist in the same host cell.

## Anthrax

Springer Buetti, Niccolò Ivo Marco-Aurelio; Atkinson, Andrew; Kronenberg, Andreas Oskar; Marschall, Jonas 2017. Biochemical Society Transactions 15 3 , p.

## Insect

Posters Those who are presenting a poster must ensure that their work is presented as below. S QBETA-REPLICASE AND E-COLI TRANSCRIPTASE - REQUIREMENTS FOR SUBSTRATE SELECTION AS REVEALED BY A STUDY OF BASE ANALOGS 749. Small discuss Beauveria and Metarhizium, asexual ascomycetes that kill a variety of insect hosts.

### **HistCite: Francis Crick and the citing papers**

The distribution of cylindrical conidia in both clades D and E may indicate at least two origins for cylindrical-shaped conidia in Beauveria.
