## Artificial habitats and the restoration of degraded marine ecosystems and fisheries

As part of this effort, the NOAA Chesapeake Bay Office conducts sonar surveys and develops analyses of existing habitat.

### About Artificial Reefs

Underwater Oases Oil rig workers and saltwater anglers have long noticed that petroleum platforms on the Continental Shelf act as unintentional artificial reefs, creating thousands of square miles of marine habitat Gulf-wide, as various species attach themselves to rigs below the waterline.

### Oyster Reef Habitat

Show more Artificial habitats have been used for centuries to successfully modify environments for the benefit of Man.

### Scientists uncover the genomic differences of marine and freshwater microalgae

Society for Ecological Restoration: 11 pp. FADs —Lake Eildon Information collated in the review was used in the design and implementation of two fish-attracting structures placed in Lake Eildon in Victoria in 2004. Seven reef sites within nine nautical miles of shore serve as accessible nearshore fishing and diving opportunities.

### Habitat Areas of Particular Concern on the West Coast

Michael Sandor Silagi, Office of Marine and Aviation Operations; Joel Schumacher, Scott Benson, and Tomoharu Eguchi, Southwest Fisheries Science Center; Camryn Allen, Pacific Islands Fisheries Science Center; Dan Prosperi, Southwest Fisheries Science Center; and Lt.

### Artificial Habitats for Marine and Freshwater Fisheries

Over the last few years, approximately 6000 applications have been received and processed. Journal of Applied Ichthyology 19, 102--105. Principles of estuarine habitat restoration.

## **Aquarium fishes ppt**

Run the aquarium for several hours. Marine and Estuarine Submerged Aquatic Vegetation: Submerged aquatic vegetation includes the canopy kelps and eelgrass.
