Metaphysics of Truth *

I should add, perhaps, that in my work in the philosophy of logic I use classical logic as a default logic and this has led some people to think that I am committed to this logic. There is extensive work on plurals by logicians and philosophers of language, and by semanticists. But clearly—and this is no criticism of Wyatt—Non-Explanatory is not in any way a claim about what truth is, but only a claim about what truth can and cannot do.

The place of philosophy

In recent years it has become more common to speak of inference rules somehow governing truth. Armstrong responds to this objection with equanimity too: we can afford to be casual about this infinite series. We, the students, had a special place in this debate: each side wanted to pull us in its direction, and we played the role of both interrogators and jury.

A Deflationary Theory of Reference on JSTOR

Smith 1999: 6 If such cases are possible then Necessitation-T fails to provide a sufficient condition for being a truth-maker. Review of Metaphysics, 19 September , 24—54.

How to Reconcile Deflationism and Nonfactualism *, Nous

In this case it is not a theoretical but a practical question, a matter of decision rather than assertion, and hence the proposed formulation would be misleading. Philosophy of Logic, Englewood Cliffs: Prentice Hall. And which can we give up consistently with deflationism? But Cieśliński's main theorems concerning believability extensions Bel K such as theorem 13.

Eliminativism: the Problem of Representation and Carnapian Metametaphysics

If deflationism is correct, however, then this approach to sentence meaning might have to be abandoned because no statement of the truth conditions of a sentence could be any more informative than the sentence itself. This led to conflation of the foundational project with the

foundationalist methodology. This course does not presuppose background knowledge and will serve as an introduction to doing advanced work in ancient philosophy.
