

# Investigations of the metabolism of N-alkyl agents with antineoplastic activity.

University of Aston. Department of Pharmacy - Antineoplastic Actions of Ether Lipids Related to Platelet

Description: -

- Investigations of the metabolism of N-alkyl agents with antineoplastic activity.
- Investigations of the metabolism of N-alkyl agents with antineoplastic activity.

Notes: Thesis (Ph.D.) - University of Aston in Birmingham 1982.  
This edition was published in 1982

European Journal of Medicinal Chemistry 2014, 74 , 657-663. THE PULMONARY TOXICITY OF NITROSOUreas.

## SYNTHESIS OF POTENTIAL ANTICANCER AGENTS. X. 2

The degree of toxicity experienced by an individual patient is highly variable and dependent on the number of drugs used and their dosage, the time of exposure, the added effects of radiation therapy and surgery, and the extent of tumor involvement. Synthesis and antitumor activity of 9-? Clinico-pathologic correlation of liver damage in patients treated with 6-mercaptopurine and adriamycin.

## Antineoplastic Drugs

Romidepsin is branded and owned by Gloucester Pharmaceuticals, now a part of Celgene. Even in the present instance, it has proved necessary for practical reasons to publish the material in two parts, although the plan of the work constitutes, at least in the editors' view, a single integrated treatment of this research area.
