Colonialism Postcolonialism (The New Critical Idiom)

In this new pattern technologies of communication in particular mobile phones are not just substitutes for face-to-face interaction, but constitute a new resource for constructing a kind of connected presence even when people are physically distant.....

Voices in the silence : narratives of disadvantage, social context and school mathematics in post

Tech shapes our US culture and culture organised to give it starring role. Here the ruptures have to do with class and ethnicity in a different sense. Social constructivism often de- scribed as interpretivism asserts a view that individuals seek understanding of the world in which they live and work by developing subjective meanings of their experiences and these meanings may be varied and multiple Creswell, 2013, p.

The Digital Anthropologist: Digital anthropology: key concepts

Voices in the silence : narratives of disadvantage, social context and school mathematics in post

Idealizing openness implies that there should be no difference in self-presentation regardless of circumstance. This includes not just what is thought or said but the rules which govern what can be said and what not, what is included as rational and what left out, what is thought of as madness or insubordination and what is seen as sane or socially acceptable.

Intersectionality in Organizations

Du Bois Review, 10,2, 405—24.
