Jawāhir al-

The science of interpretation has a special position in the Islamic sciences and has been addressed seriously by Muslims from the very first days of Islam, because interpretation is to understand and discover the points of the best speech, i. On the other hand, the insufficient references to the new and old interpretive resources along with the scarcity of the scientific references of the commentary are among its weaknesses. Qum: Mu'assasat Āl al-Bayt li Ihyā' al-Turāth.

A Review and Criticism of Wahba Zuhayli's Method in al-

This has led to the identification of the differences of this commentary with other interpretive works. His arguments illuminate some of the substantial yet little-understood and appreciated issues that have been truly at stake between the two principal segments of the Muslim community.

A Review and Criticism of Wahba Zuhayli's Method in al-

If you are not a member, proceed from part. The strengths of this commentary are its investigation of the contemporary social, political, and jurisprudential issues as well as its high readability.
