### The art of Biblical narrative (1981 edition)

Type scenes, similar settings and stories such as meeting a future spouse at a well, play off each other, inviting the reader to compare and contrast what happens in one scene with its counterpart and to find meaning in these similarities and differences.

### The art of Biblical narrative : Alter, Robert : Free Download, Borrow, and Streaming : Internet Archive

In other words, at the lower end we can only learn about the character through actions or appearance, meaning we have to infer everything else. Perhaps the criticisms were valid, but they didn't try with this.

### The Art of Biblical Narrative by Robert Alter

That being said, I loved Alter's breakdowns of biblical stories, especially his frequent reference to Joseph in Egypt.

### 'The Art of Biblical Narrative' by Robert Alter

This indeterminacy and element of the chaotic humanness which the reader always lives in plays out in the Bible's depiction of history, which oscillates between God's hand being clearly at work Esther and human drama taking the spotlight Deuteronomic history , with no book being completely at one extreme or the other. Still, this book is worth its weight in gold, and belongs on every literature lover's shelf. It places too much emphasis on the fragmented nature of the Biblical texts, and in doing so overlooks the nuances of language and story that unify the tomes.

### The Art of Biblical Narrative

Alter's thesis is that the literary quality of the Bible has been sadly overlooked. The Priestly account recognizes that women are men's equal in morality, in strength, in intelligence.

### The art of Biblical narrative (1981 edition)

Literature is paradoxical as is human life.

### **The Art of Biblical Narrative by Robert Alter**

In its deep characterization and portrayal of the human, Alter sees in the Bible a possible birth of fiction. While I can't agree with every conclusion at which he arrived, this book has equipped me with a framework that will assist me in finding meaning in Old Testament narrative.
