Addressing the protests, the president had yesterday spoken of his enthusiasm for free speech but a joint press conference today with the prime minister was dominated by the twin bombings in Istanbul. However, the accent is only used in words whose stressed syllable is in an unpredictable location within the word: where the location of the stressed syllable is predictable, no accent is used, and the height of the stressed vowel cannot then usually be determined solely from the word's spelling.

Hmmm... no salt or sugar? Akuuti merkitsee yleensä suljetumpaa vokaalia kuin vastaava vokaali graviksella varustettuna tai ilman tarketta. This acute accent key was already present on typewriters where it typed the accent without moving the carriage, so a normal letter could be written on the same place.

The Proud, as all the other works in the series, is characterised by an amorphous shape that elongates vertically. Ennen kuin akuutti tuli mukaan espanjalaiseen näppäimistöön, espanjankielisten käyttäjien oli opeteltava nämä koodit ulkoa, mikäli he halusivat saada akuutin mukaan kirjoittamaansa tekstiin. I originally developed this recipe for my book.
