His followers got taken to the cleaners.

### Restoring Confidence in the Voting Process

The fact of the matter is even on the cases where the judge said they had standing they did not allege fraud. Authoritarian regimes are judged mainly on their economic performance, whereas democratic regimes are evaluated on the basis of democratic principles. Voting is a transaction, and should have the same accounting procedures, transparent nationally, statewide, countywide, and locally by every individual.

If we accepted their objections as valid, only the votes in Guam would have counted.

### Restoring Respect, Confidence and Efficacy in Our Republic: The Federal, State, and Private Sector Roles

When survey respondents are asked about their confidence in the parts of the electoral process with which they have direct contact, such as their own vote, they are much more confident than when they are asked about parts of the electoral process they have indirect contact with, such as the process in the nation as a whole. Nor were they the only ones relating trends in political trust to a broader systemic crisis of representative democracy in the Western world. As more and longer time series data became available in the 1990s, the debate began to focus primarily on the nature of these trends.

I have been voting in Michigan for about 28 years and never heard of any voting problems.

### One Act: Restoring my Confidence in the Democratic Process

Trump was within a couple hundred thousands votes across a few states away from either forcing a tie, which he would win in the House, or flat

out winning. This decline seems to have bottomed out since.

After all they are supposed to represent the best of us. Under these laws, all Senate-confirmed nominees fill out financial disclosure reports to ensure no financial conflict of interest will exist during the performance of public duties.

### **Restoring Confidence in the Voting Process**

They looked at voting technology, voter access, registration and identification issues, election administration and more, and made a variety of recommendations that states have sought to implement—photo identification requirements among them. Words mean things and Americans need a reminder of this fact. You might think that, after turning this favorable evidence over, the prosecution would no longer stand in the way of justice.
