Yet, this relationship is more complex than one would tend to think at first, and it is not merely a matter of dynasticism or mutual support among kin to monopolize important official positions.

## Sibling Relations and the Transformations of European Kinship, 1300

This book presents new ways of looking at the long term development of european kinship from around 1300 to around 1900 we have suggested conceiving two major transitions the first led from the late middle ages into the early modern period and was linked to processes of state formation and property consolidation it can be associated with an increasing stress on vertical kin relationships.
