Scientific Analyses and Papers on Lockdown Effectiveness — The Fat Emperor

More than a few CVs were beefed up along the way. The second problem is having a conflict of interest.

The 'XKCD' Science

Acquire the necessary background knowledge Scientific papers are written in the language of science. January 2020 There is increasing frustration amongst OA advocates, with what is perceived as resistance to change on the part of many of the established academic publishers. But that weird case report? Read on for help finding the full paper.

Academic publishing

Another modeling study trying to predict the unpredictable? At its best, peer review is a slow and careful evaluation of new research by appropriate experts. In other words, it's fine to see what other people have to say about the paper as long as you go back to the original paper to see if they are right, rather than blindly taking their word for it. Paper journals are now generally made available in electronic form as well, both to individual subscribers, and to libraries.

The Lancet has made one of the biggest retractions in modern history. How could this happen?

The conference was organized by the Czech Concrete Society in Prague. An equally prestigious site of publication within U.

Hundreds of gibberish papers still lurk in the scientific literature

If the paper was written by respected experts in their fields, published in a high impact factor journal, and makes sense in light of what other researchers have found, then I would probably give the authors the benefit of the doubt and assume that they knew what they were doing. The and are prominent examples of this model. Given the seriousness of the topic and the consequences of the paper, this is one of the most consequential retractions in modern history.

We publish scientific and engineering peer

There are a handful of free, publicly available academic search engines that can be accessed online; some of these are listed in Table 1, below.

The 'XKCD' Science

The pages you get back will be a wide mixture of websites, and very few will be links to peer-reviewed scientific papers.

Hundreds of gibberish papers still lurk in the scientific literature

It is free to download, and anyone can use it. OARD is based on OAI-PMH Open Archives Initiative Protocol for Metadata Harvesting protocols which help to index the research papers worldwide.
