### Knowledge 4 All

Although the number of attacks that resulted in zero, one, two to four, or five to ten fatalities decreased, the number of attacks involving more than 10 deaths increased from 562 in 2014 to 597 in 2015.

### Statistical Annex

Likewise, there were 85 occasions in 2015 when more than 50 people were killed in terrorist attacks on one day in a particular country.

### SDG Indicators — SDG Indicators

Six of the 20 deadliest individual terrorist attacks in 2015 took place in Nigeria. Of the attacks for which perpetrator information was reported, 32% were attributed to the Taliban or the Islamic State of Iraq and the Levant ISIL.

### Knowledge 4 All

The data below was released 10 June 2020 or as PDF: and. However, other types of transportation were targeted more frequently in 2015, increasing to 381 from 356 in 2014. More specifically, police victims were reported more often, their total rising more than 20 percent, from over 6,500 in 2005 to over 8,200 in 2006.

### Knowledge 4 All

Likewise, four countries not ranked in Table 2 among those with the most attacks, but were among the ten with the most deaths in 2015. Attacks on all types of targets in Iraq decreased in 2015, with the exception of attacks against businesses, which increased 67%. Data in some of the tables have been adjusted to conform to internationally agreed concepts and definitions in order to make them more comparable cross countries, as well as consistent with historical data shown in other OECD publications.

## **National Counterterrorism Center: Annex of Statistical Information**

Section 2656fb of Title 22 of the U. The data provided on the website is based on the statutory definition set forth in the Developing Statistical Information section to this Annex.

### **Knowledge 4 All**

Prior to the turn of the 20th century there was no formal border here, but the current line is roughly the northern reach of the 19th century. Shown in Figure 2, the most commonly used tactic in 2015 involved explosives 52% , followed by armed assaults 23% , which almost always involved firearms.
