This hugely successful history of political and economic integration in Western Europe since the Second World War -- and especially, but by no means exclusively, the European Community itself -- was first published in 1991, to general acclaim. The period since 1945 has seen political events and socio-economic developments of enormous significance for the human race.

Moreover the concept of a wider Europe has become a significant political factor in the postwar world. Derek Urwin traces the movement towards political and economic integration in Western Europe from the calls for a federal Europe that were made by the European Resistance movements and their immediate postwar successors, through to the demands that are now heard for complete monetary and partial political union.
