The ministers of today have nothing to fear when - in press conferences, in international meetings, in speeches at universities - they use English, whether because they pride themselves on presenting an image of modernity or because they are convinced that the use of French is no longer prestigious. Of these, it's the latter that is fundamental: the former makes little sense unless taken as a corollary of the latter.

The rest remained on the books, but, according to Hagège, continued to be openly violated with near-impurity. As far as I know, this word's etymology has not previously been investigated, so I was happy to discover it this morning quite by chance. For English speakers, it is mysterious and highly debatable whether we have souls, but obvious except to the odd philosopher that we have bodies.

Over and over again, you find Zionists insisting that Israel is a nation, that Palestine is not a nation, that Palestine must acknowledge that Israel is a nation - as if nationhood were the key issue at stake. The name is interestingly distorted: I can only suppose that it represents an etymological hybrid of Lunja with Angela. The name is widespread, but the story is somewhat more variable.

Western Berber influence, however, is not reconstructible at the proto-Northern-Songhay level, despite being attested in most Northern Songhay languages individually. Conveniently, this article is freely downloadable - no subscription necessary.

She strongly supports teaching in Fusha, not for nationalistic or religious reasons, but simply - because its use lets teachers reassert their authority over the class! Unfortunately I didn't elicit plurals for the rest.
