### Use of the Term Natural on Food Labeling

This material works not by poisoning or smothering the insects, but instead by virtue of its abrasive qualities and its affinity for absorbing the lipids a waxy substance from insects' exoskeleton, which then dehydrates them to death.

### Natural Definition & Meaning

It is a story about faith, good and evil, right and wrong, fathers and sons. This Centers for Disease Control webpage provides advice and resources to help individuals and institutions prepare for, respond to, and recover after a hurricane or tropical storm.

### Natural Disasters

But since the Knights were the visitors, the Cubs get to bat last. Applying insecticides indiscriminately, especially harsh pesticides that affect even the beneficial insects, can have a detrimental effect on your local garden ecosystem.
