Archetype

Like Hi Persephone, The numbers 11, 22 and 33 are known as Master numbers in numerology and are considered sacred or spiritual numbers.

An Encyclopedia of Archetypal Symbolism

The young, flawed, and brooding became the most widely imitated archetype in the genre since the appearance of Superman. I have always felt that the numbers 11, 22, and 33 are connected to our souls evolution over lifetimes. This means that the right hemisphere is better at getting a picture of a whole from a fragment, is better at working with confused material, is more irrational than the left, and is more closely connected to bodily processes.

An Encyclopedia of Archetypal Symbolism

Description The Book of Symbols combines original and incisive essays about particular symbols with representative images from all parts of the world and all eras of history. Etymological roots, the play of opposites, paradox and shadow, the ways in which diverse cultures have engaged a symbolic image—all these factors are taken into consideration. The design itself has three parts: the central rod symbolizes alchemical powers and it signifies the connection between the spiritual and earthly world.

Archetypes meaning in dream

The ego is but one psychological within an assemblage of fantasies. Some believe that it is where the Akashic Records reside. Critics have accused Jung of metaphysical.
