In short, there is no end to the. It was used by Boston, New York, Philadelphia, and Washington; by the cities situated along the Ohio, Missouri, and Mississippi rivers; and by many others. The legislation remained in force until they were repealed in 1824.

Tracking Down the Roots Chronology

The task of building a new sewer network was assigned to the Metropolitan Board of Works, the successor to the earlier Commission, and its chief engineer Joseph Balzalgette.
