## Contemporary Water Governance in the Global South: Scarcity, Marketization ...

A sub-decree covering this is currently being drafted. It also highlights the tremendous progress made by the GMS countries, as well as the need to address the increasing risks that they face.

### Promise and peril of the mighty Mekong 9.7.96

Faced with an expected doubling in world demand for energy by 2050, massive investment will be needed to develop and install systems that can not only meet the energy needs of nine billion people but at the same time reduce greenhouse gas GHG emissions, air pollution, toxicity, the impacts on land, water and other eco-systems.

## Contemporary Water Governance in the Global South: Scarcity, Marketization ...

The Heads reviewed political and security situations in both regions and underlined the importance of support for international initiatives to solve outstanding problems. .

**Eric Y.J. LEE**

Oral Presentation: The role of hydrological alteration in explaining invasiveness of two North American fish species introduced to the Iberian Peninsula.
