### Classroom

**Cattle — Louisiana Ag in the**

This results in between three and six calves instead of the normal single or rarely twins. The cycle continues, with each new baby taken away from his or her mother. Dairy cattle are polyestrous, meaning they cycle continuously throughout the year.

### New cattle breed brings higher yield to dairy farmers

They seem to forget that cows produce milk because they become pregnant just like us.

### Walker Dairy Sales

Milking Shorthorn first came to the U.

### New cattle breed brings higher yield to dairy farmers

Selling milk is their livelihood and they have to keep their cattle healthy.
