## The Eight Parts of Speech

It is clear in the text which sites would incur a fee at the time it was published, but be sure to check the links now and update them as needed.

## Basic Course & General Education

I think this ensures that different perspectives were used to help create a well-rounded textbook for public speaking. However, Chapter 2 will need to be updated pretty quickly as Donald Trump is now president, which should also provide some good additional support and examples that can be included regarding ethics and communication. A good text for a Public Speaking Course.

## Free Sample of Speeches

. Although the concepts are clearly defined, there is room for more.

## Speech To text In Visual Basic

They refer back to other content previously mentioned or that they can expect in future chapters. There are clearly delineated learning objectives, take-aways, and assessment questions for each chapter.

## Basic Course & General Education

The appendix chapters should be leading the book and could be better developed. Interface rating: 4 The text lacks interface issues. Content Accuracy rating: 5 The content of this book is accurate and error-free to the best of my knowledge.
